Summary

Computer Science graduate (CGPA: 8.80/10) focused on **backend and applied AI engineering**. Built and deployed systems spanning on-chain intelligence, agentic workflows, and MCP tooling using Python, FastAPI, PostgreSQL, Docker, and cloud infrastructure.

Technical Skills

Programming/Backend: Python, JavaScript, SQL, FastAPI, Pydantic, SQLAlchemy, REST APIs

AI/Agents: LLM Agents, RAG, LangGraph, NVIDIA NOOA, MCP, FastMCP, OpenRouter

Databases: PostgreSQL, MySQL, MongoDB, SQLite, pgvector

Frontend/Infra: React, Git/GitHub, Docker, Docker Compose, GitHub Actions, Cloudflare Workers, Render, DigitalOcean, AWS S3

Experience

Employability.life – Federation University Australia [\[Certificate\]](#) [\[Recommendation\]](#) **Sep 2024 – Nov 2024**
Experiential Learner – RPA Developer & Business Analyst *Kolkata, India*

- Built UiPath automation workflows that reduced manual data-processing time by **10+ hours/week** and error rate by **70%**; authored PDDs and coordinated requirements, testing, and sign-off across Agile sprints.

Projects

TraceIntel – Persistent On-Chain Exposure Intelligence [\[Live\]](#) [\[GitHub\]](#) **2026**
Python, FastAPI, PostgreSQL, SQLAlchemy, NVIDIA NOOA, Ethereum/Monad, React, Docker, Cloudflare, Render

- Built and deployed a read-only **on-chain exposure intelligence platform** for Ethereum and Monad that reconstructs transaction evidence, decodes ERC-20 approvals, and compares historical permissions with current allowance, balance, and spender bytecode.
- Engineered **bounded async RPC acquisition and immutable Pydantic evidence models**; persisted analyses in PostgreSQL with Alembic migrations, cache revalidation, request budgets, and restart-safe job leases.
- Integrated **three restricted NVIDIA NOOA agents** that select only validated, cited claims while deterministic blockchain analysis remains authoritative; added backend, frontend, browser, and evaluation suites and deployed through Cloudflare Workers, Render Docker, and PostgreSQL.

ARIS – Technology Adoption Intelligence [\[Live\]](#) [\[GitHub\]](#) **2026**
Python, LLM Agents, NVIDIA NIM, Heym/FastAPI, PostgreSQL, Docker, GitHub/OSV/Tavily APIs

- Built and deployed a **7-branch parallel intelligence workflow** that evaluates software adoption across six weighted dimensions using GitHub, OSV, Tavily, package-ecosystem, and repository data, with all scores computed deterministically in Python.
- Extended a self-hosted Heym fork with custom **PythonExec** nodes for deterministic scoring and API/MCP payload compression before LLM steps; deployed a Cloudflare frontend with a Dockerized Heym/FastAPI/PostgreSQL backend on DigitalOcean.

MCP-Driven DevOps Orchestration Hub [\[GitHub\]](#) [\[Demo\]](#) **2026**
JavaScript, Node.js, OpenClaw, MCP, Redis, MongoDB, Docker

- Contributed to an **MCP-driven DevOps job-runner system** that routes Telegram/OpenClaw requests through MCP skill scripts to backend jobs, Redis queues, workers, and MongoDB log storage.
- Implemented agent skills for network, system, and login diagnostics, job-status reporting, and failed-job log analysis, with command execution isolated inside Docker containers.

Study Buddy – MCP Learning Server [\[GitHub\]](#) **2026**
Python, FastMCP/MCP SDK, SQLite, Pydantic, uv

- Built a Python MCP server exposing **13 tools, 3 resources, and 4 prompts** for structured access to PDF, DOCX, image-based study material, and previous-year examination papers.
- Implemented SQLite-backed mastery tracking, fuzzy topic matching, PYQ extraction and style analysis, Pydantic-bounded inputs, and path-traversal-safe local file access.

Education

Sister Nivedita University **Jun 2022 – Jun 2026**
B.Tech in Computer Science and Engineering – CGPA: **8.80/10**

Achievements

2nd Place – BRICS-FS-36 Data Analysis & Visualization [\[Certificate\]](#) **Dec 2024**
Awarded 2nd Prize in the international final held in China.

EL Excellence Award – Top 50 Learner [\[Award\]](#) [\[Citation\]](#) **Feb 2026**

Certifications

Applied ML in Python [\[Certificate\]](#) – University of Michigan **MCP Fractal** [\[Certificate\]](#) – Coursera

SQL [\[Certificate\]](#) – University of Colorado Boulder
